RENEWED

Willems Baling Equipment realises the optimum efficiency in product packaging for our customers. We achieve this by building custom machines which set the global quality standard for years.

We build complete production lines with machines and components designed to work together perfectly. A smooth work flow from start to finish. From infeed bunkers, bulk transport such as belt conveyors, press packaging, palletising and protected covering with stretch hoods.

All turn key produced, delivered, installed and serviced by Willems. Worldwide.
